MANQASANA LEPOTA

SOFTWARE DEVELOPER

Johannesburg | 065 669 3734 | nqhasy@gmail.com

Portfolio: github.com/Manqasana-Lepota/manqasana-dev-portfolio | LinkedIn: linkedin.com/in/manqasana-lepota-98349483

PROFESSIONAL PROFILE

Software developer with experience spanning Java application development, enterprise banking application support, and Azure cloud security. Builds practical web applications using Python, Flask, React, JavaScript, SQL, and modern development tools. Brings a strong troubleshooting mindset, experience in production support and UAT, and a focus on reliable, user-friendly software.

TECHNICAL SKILLS

Languages: Java, Python, C#, JavaScript, SQL | Web: React, Flask, Spring Boot, REST, JSP, jQuery, HTML/CSS, Bootstrap, Tailwind CSS
Data and testing: MySQL, PostgreSQL, SQL Server (basic), JDBC, Hibernate, JUnit | Cloud and tools: Azure, Microsoft 365, Docker (basic), Kubernetes, Git, BMC Remedy, IntelliMatch

PROFESSIONAL EXPERIENCE

LGIT SMART SOLUTIONS
Mar 2024 - Jul 2024

Cloud Security Intern

- Gained practical experience with Microsoft Azure fundamentals, administration, and cloud security concepts.
- Assisted with Azure system deployment, monitoring, maintenance, and troubleshooting across Azure AD / Microsoft Entra ID and Microsoft 365.
- Built understanding of access management and system administration while investigating and resolving technical issues.

STANDARD BANK
Apr 2021 - Apr 2022

IT / Enterprise Application Support

- Supported enterprise banking applications in a high-availability production environment and assisted with incident investigation and resolution.
- Helped users with account creation and application issues; used BMC Remedy for incident and support workflows and IntelliMatch in the banking environment.
- Participated in User Acceptance Testing and application changes, collaborating with technical and business teams in an Agile/Scrum environment.

PROFESSIONAL EXPERIENCE - CONTINUED

JUMPCO **Jan 2018 - Dec 2019**

Software Development Intern / Learnership

- Supported software development, maintenance, debugging, and troubleshooting activities.
- Applied Java and object-oriented programming, with exposure to Java 8/11, Spring Boot, Hibernate, REST services, JSP, JavaScript, and jQuery.
- Used MySQL and JDBC for database development, JUnit for testing, and Git for source control; assisted with resolving software issues.

SELECTED PROJECT

CLINIC BOOKING SYSTEM

Python, Flask, MySQL, Bootstrap, HTML/CSS, JavaScript

- Developed a web-based clinic appointment management system with separate Admin, Doctor, and Patient roles.
- Implemented authentication and role-based access, including session-based login and password hashing.
- Built doctor management tools to add, edit, view, and activate or deactivate doctor accounts.
- Created appointment search, pagination, approval, and cancellation workflows, plus consultation records for diagnoses, prescriptions, notes, and instructions.
- Integrated Flask with MySQL using flask_mysqldb; organized the application with Flask Blueprints and an application-factory pattern.
- Designed a responsive interface with Bootstrap.

EDUCATION

National Diploma: Information Technology - Software Development

Central University of Technology, Free State | 2012

CERTIFICATIONS & TRAINING

- Microsoft Certified: Azure Fundamentals (AZ-900)
- Microsoft Certified: Azure Administrator Associate (AZ-104)
- Kubernetes and Cloud Native Associate (KCNA) - 2025
- National Certificate: Information Technology - Systems Development, NQF Level 5
  Umuzi Academy | 2020-2021
- Python Online Bootcamp | GirlCode | Aug 2023 - Nov 2023
- Cybersecurity Studies | Coursera | Currently studying
